

High Level Test Cases

Happy Path - Factorial Calculator:

- Applying Equivalent Partitioning
 - Test with 0
 - Test with Negative Number **(Bug)**
 - Test with Positive Number
 - Test with Large Positive Number **(Bug)**

PS: No limit is specified, therefore a defect was submitted.

Once Bug is fixed/corrected and requirement is clear enough then applying EP + Boundary Value Analysis more tests are to be added to the coverage:

- Test for right limit number
- Test for a number greater than the right limit number

Negative Tests - Factorial Calculator:

- Test with Decimals
- Test with Non numeric data
- Test with Empty input

Happy Path - Navigation:

- Test - verify privacy information **(Bug)**
- Test - verify terms & conds information **(Bug)**
- Test - verify redirect for footer link

Exploratory Test:

During this experience based technique 2 minor bugs were identified

- Misspell of title in tab/window
- Internet Explorer title is not in green color
